

Ladybird Forest Pre-School

Safeguarding and Welfare Requirements: Managing Behaviour

7.1 Promoting Positive Behaviour

Policy Statement

At Ladybird Forest Pre-School, we believe that children flourish best when they know how they and others are expected to behave. Children gain respect through interaction with caring adults who act as good role models, show them respect and value their individual personalities. The Pre-School actively promotes British values and encourages and praises positive, caring, and polite behaviour always and provides an environment where children learn to respect themselves, other people and their surroundings.

Children need to have set boundaries of behaviour for their own safety and the safety of their peers. Within the Pre-School we aim to set these boundaries in a way which helps the child to develop a sense of the significance of their own behaviour, both in their own environment and that of others around them. Restrictions on the child's natural desire to explore and develop their own ideas and concepts are kept to a minimum.

Procedures

We aim to:

- Recognise the individuality of all our children and that some behaviours are normal in young children e.g. biting.
- Encourage self-discipline, consideration for each other, our surroundings and property.
- Encourage children to participate in a wide range of group activities to enable them to develop their social skills.
- Ensure that all staff act as positive role models for children.
- Encourage parents and other visitors to be positive role models and challenge any poor behaviour shown.

Ladybird Forest Pre-School

- Work in partnership with parents by communicating openly.
- Praise children and acknowledge their positive actions and attitudes, therefore ensuring that children see that we value and respect them.
- Encourage all staff working with children to accept their responsibility for implementing the goals in this policy and to be consistent.
- Promote non-violence and encourage children to deal with conflict peacefully.
- Provide a key person system enabling staff to build a strong and positive relationship with children and their families.
- Provide activities and stories to help children learn about accepted behaviours, including opportunities for children to contribute to decisions about accepted behaviour where age/stage appropriate.
- Have a named person who has overall responsibility for behaviour management.

The named person for managing behaviour will:

- Advise other staff on behaviour issues.
- Keep up to date with legislation and research.
- Support changes to policies and procedures in the Pre-School.
- Access relevant sources of expertise where required and act as a central information source for all involved.
- Attend external training events, and ensure all staff attend relevant in-house training for behaviour management. Keep a record of staff attendance at this training.

Our Pre-School rules are concerned with safety, care, and respect for each other. We keep the rules to a minimum and ensure that these are age and stage appropriate. We regularly involve children in the process of setting rules to encourage cooperation and participation and ensure children gain understanding of the expectations of behaviour relevant to them as a unique child.

Ladybird Forest Pre-School

Children who behave inappropriately, for example by physically abusing another child or adult e.g. biting, or through unwelcome language, are helped to talk through their actions and apologise if appropriate for their age. We make sure that the child who has been upset is comforted and the adult will confirm that the other child's behaviour is not acceptable. We always acknowledge when a child is feeling angry or upset and that it is the behaviour that is not acceptable, not the child.

When children behave in unacceptable ways:

- We never use or threaten to use physical punishment/corporal punishment such as smacking or shaking.
- We only use physical intervention for the purpose of averting immediate danger or personal injury to any person (including the child) or to manage a child's behaviour if necessary. We keep a record (**Physical Intervention record**) of any occasions where physical intervention is used and inform parents on the same day, or as reasonably practicable.
- We recognise that there may be times where children may have regular occasions where they lose control and may need individual techniques to restrain them. This will only be carried out by staff who have been appropriately trained to do so. Any restraints will only be done following recommended guidance and training and only with a signed agreement from parents on when to use it. We will complete a '**Physical Intervention record**' form following any restraints used and notify the parents.
- We do not single out children or humiliate them in any way. Where children use unacceptable behaviour they will, wherever possible, be re-directed to alternative activities. Discussions with children will take place as to why their behaviour was not acceptable, respecting their level of understanding and maturity.
- Staff will not raise their voices inappropriately.
- In any case of misbehaviour, we always make it clear to the child or children in question, that it is the behaviour and not the child that is unwelcome.

Ladybird Forest Pre-School

- We decide how to handle a behaviour depending on the child's age, level of development and the circumstances surrounding the behaviour. This may involve asking the child to talk and think about what he/she has done. All staff support children in developing empathy and children will only be asked to apologise if they have developed strong empathy skills and have a good understanding of why saying sorry is appropriate.
- We help staff to reflect on their own responses towards challenging behaviours to ensure that their reactions are appropriate.
- We inform parents if their child's behaviour is unkind to others or if their child has been upset. In all cases, we deal with inappropriate behaviour at Pre-School at the time. We may ask parents to meet with staff to discuss their child's behaviour, so that if there are any difficulties, we can work together to ensure consistency between their home and the Pre-School. In some cases, we may request additional advice and support from other professionals, such as an educational psychologist.
- We support children in developing non-aggressive strategies to enable them to express their feelings.
- We keep confidential records on any inappropriate behaviour that has taken place in a Behaviour Incident Form. We inform parents and ask them to read and sign any incidents concerning their child.
- We support all children to develop positive behaviour, and we make every effort to provide for their individual needs.
- Through partnership with parents and formal observations, we make every effort to identify any behavioural concerns and the causes of that behaviour. From these observations and discussions, we will implement an individual behaviour plan where a child's behaviour involves aggressive actions towards other children and staff, for example hitting, kicking etc. The Manager/Deputy/named Behaviour Coordinator will always complete risk assessments identifying any potential triggers or warning signs ensuring other children's and staff's safety. In these instances, we may remove a child from an area until they have calmed down.

Ladybird Forest Pre-School

Anti-bullying

Bullying takes many forms. It can be physical, verbal, or emotional, but it is always a repeated behaviour that makes other people feel uncomfortable or threatened. We acknowledge that any form of bullying is unacceptable and will be dealt with immediately while recognising that physical aggression is part of children's development in their early years.

We recognise that children need their own time and space and that it is not always appropriate to expect a child to share. We believe it is important to acknowledge each child's feelings and to help them understand how others might be feeling.

We encourage children to recognise that bullying, fighting, hurting, and discriminatory comments are not acceptable behaviour. We want children to recognise that certain actions are right and that others are wrong.

At our Pre-School, staff follow the procedure below to enable them to deal with challenging behaviour:

- Staff are encouraged to ensure that all children feel safe, happy, and secure.
- Staff are encouraged to recognise that active physical aggression in the early years is part of the child's development and that it should be channelled in a positive way.
- Children are helped to understand that using aggression to get things, is inappropriate and they will be encouraged to resolve problems in other ways.
- Our staff will intervene when they think a child is being bullied, however mild or harmless it may seem.
- Staff will initiate games and activities with children when they feel play has become aggressive, both indoors and out.
- Staff will sensitively discuss any instance of bullying with the parents of all involved to look for a consistent resolution to the behaviour.

Ladybird Forest Pre-School

- We will ensure that this policy is available for staff and parents and it will be actively publicised at least once a year to parents and staff.
- If any parent has a concern about their child, a member of staff will be available to discuss those concerns. It is only through co-operation that we can ensure our children feel confident and secure in their environment, both at home and in the Pre-School.
- All concerns will be treated in the strictest confidence.

By positively promoting good behaviour, valuing co-operation and a caring attitude, we hope to ensure that children will develop as responsible members of society.

Biting

At Ladybird Forest Pre-School, we always follow a positive behaviour policy to promote positive behaviour. However, we understand that children may use certain behaviours such as biting as part of their development. Biting is a common behaviour that some young children go through and can be triggered when they do not have the words to communicate their anger, frustration or need.

Procedures

The Pre-School uses the following strategies to help prevent biting: sensory activities, biting rings, adequate resources and staff who recognise when children need more stimulation or quiet times. However, in the event of a child being bitten we use the following procedures:

- Comfort any child who has been bitten and check for any visual injury. Administer any first aid where necessary. Complete an accident form and inform the parents via telephone if deemed appropriate. Continue to observe the bitten area for signs of infection. For confidentiality purposes and possible conflict, we do not disclose the name of the child who has caused the bite to the parents.

Ladybird Forest Pre-School

- Tell the child who has caused the bite in terms that they understand that biting (the behaviour and not the child) is unkind and show the child that it makes staff and the child who has been bitten sad. The child will be asked to say sorry if developmentally appropriate or helped to develop their empathy skills by giving the child who has been bitten a favourite book or comforter. Complete an incident form to share with the parents at the end of the child's session.
- If a child continues to bite, carry out observations to try to distinguish a cause, e.g. tiredness or frustration.
- Arrange for a meeting with the child's parents to develop strategies to prevent the biting behaviour. Parents will be reassured that it is part of a child's development and not made to feel that it is their fault.

In the event of a bite breaking the skin and to reduce the risk of infection from bacteria, give prompt treatment to both the child who has bitten and the child who has been bitten. If a child or member of staff sustains a bite wound where the skin has been severely broken arrange for parents or carers to collect their child and seek appropriate medical attention after initial first aid has been carried out.

In cases where a child may repeatedly bite and/or if they have a special educational need or disability that lends itself to increased biting, e.g. in some cases of autism where a child doesn't have the communication skills, the Manager/Deputy/SEN Manager will carry out a risk assessment and may recommend immunisation with hepatitis B vaccine for all staff and children.

Relevant Ladybird policies:

- 1.2 Safeguarding Children and Child Protection
- 8.1 Health and Safety
- 10.8 General Data Protection Regulation
